Major Stephen's Column

When we look in a mirror, what do we see? Yes, we see ourselves; but how do we perceive ourselves? What do we think we are like? How clever, capable and confident are we?

What do we do when things go wrong; when our best laid plans do not result as we had hoped?

Some would answer this with the age-old adage, "If at first you don't succeed, try, try again." This may not resolve the problem, because, as some say, "If you always do what you have always done, you'll always get what you have always got." Therefore, if something didn't work first time, rather than repeat the task with more effort, try something different.

A couple of quotes to conclude: "I have not failed. I've just found 10,000 ways that won't work." Thomas A Edison. "Success is stumbling from failure to failure with no loss of enthusiasm." Winston Churchill.
